

# COVID-19 Impact and Recovery Report: Domestic Travel

Updated: August 4, 2020

In response to COVID-19, Destination Canada has established a framework and analytical approach to identify signals from consumer and industry behaviour to understand when, where and at what pace travel and tourism will resume.

Destination Canada collaborated with partners in destination marketing, media, technology and travel to identify these indicators and signals. The framework has identified multiple phases of recovery, which aligns with user sentiment and intent to travel. For smaller provinces and territories, it is cautioned that lower availability of data can impact the reliability of signals. Given these limitations, Destination Canada has provided an assessment for all provinces and territories to the best of its ability. The summary of the methodology and terms can be found in Methodological Notes.

As a complement to this document, Destination Canada also provides updates to travel related measures that are currently in place for each province and territory, please reference the *Travel Related Measures* document: <https://www.destinationcanada.com/en/coronavirus-updates/covid-19-research#canadianresidentsentiment>

## Summary of current phase for each province and territory:

A sharp increase for the week ending August 2, 2020 has brought inter-provincial dining searches to a level that is similar to 2019 levels.
Activities & Events Search Index	○	○	○	●	○	○	YOY intra-provincial activities & events searches are at moderate levels and have been trending upwards since the week ending May 24, 2020. YOY inter-provincial activities & events searches are at moderate levels and have been trending upwards since the week ending May 17, 2020.

Legend:      Current phase ●      Not there yet ○      Signal not applicable □

<b>New Brunswick</b>	<b>IV</b> Inter-Provincial	Inter-provincial travel searches and accommodation searches are at low to moderate levels but inter-provincial accommodation bookings are now at moderate levels. These signals indicate that New Brunswick have moved into the Inter-Provincial phase.
----------------------	-------------------------------	---

**New Brunswick Assessment Summary:**

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	●	○	○	○	YOY intra-provincial travel searches have been at a level that is above the same period in 2019 since the week ending June 14, 2020. YOY inter-provincial travel searches have been plateaued at low to moderate levels since the week ending July 12, 2020.
Accommodation Searches on OTA	○	○	●	○	○	○	YOY intra-provincial accommodation searches are at moderate levels and have been fluctuating but generally trending upwards. YOY inter-provincial accommodation searches are at low levels but have been trending upwards since the week ending June 14, 2020.
Rate of Hotel Booking	○	○	○	●	○	○	YOY intra-provincial accommodation bookings have been fluctuating but generally trending upwards since the week ending June 28, 2020. A sharp increase for the week ending August 2, 2020 has brought intra-provincial accommodation bookings to a level that is slightly above 2019 levels. YOY inter-provincial accommodation bookings have also been fluctuating but trending upwards since the week ending June 28, 2020. A sharp increase for the week ending August 2, 2020 has brought inter-provincial accommodation bookings to a moderate level.
Rate of Air Travel	/	/	/	○	○	○	For the week ending August 2, 2020, YOY air bookings from New Brunswick to other inter-provincial destinations is down 96% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending June 28, 2020 at -88% YOY.
New COVID Cases	○	○	●	/	/	/	The number of weekly new cases in New Brunswick for the week ending August 2, 2020 was zero. New Brunswick has had 7 weeks in a row with 10 new cases or less.
Dining Search Index	○	○	○	●	○	○	YOY intra-provincial dining searches have been at a level that is above the same period in 2019 since the week ending May 31, 2020. YOY inter-provincial dining searches have been plateaued at a moderate level since the week ending July 12, 2020.
Activities & Events Search Index	○	○	●	○	○	○	YOY intra-provincial activities & events searches have been at a level that is similar to 2019 levels since the week ending June 14, 2020. YOY inter-provincial activities & events searches have been plateaued at a low level since the week ending July 5, 2020.

Legend:      Current phase ●      Not there yet ○      Signal not applicable □

<b>Nova Scotia</b>	<b>III</b> Intra-Provincial	Intra-provincial travel searches are above 2019 levels and Nova Scotia continues to have a low number of weekly cases. Combined with intra-provincial accommodation bookings that are at moderate levels, these signals indicate that Nova Scotia is in the Intra-Provincial phase.
--------------------	--------------------------------	---

**Nova Scotia Assessment Summary:**

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	●	○	○	○	YOY intra-provincial travel searches have been at a level that is above the same period in 2019 since the week ending June 14, 2020.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial accommodation searches are at low to moderate levels and have been trending upwards since the week ending May 31, 2020.
Rate of Hotel Booking	○	○	●	○	○	○	YOY intra-provincial accommodation bookings are at moderate levels and have been trending upwards since the week ending May 24, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending August 2, 2020, YOY air bookings from Nova Scotia to other inter-provincial destinations is down 85% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending June 28, 2020 at -78% YOY.
New COVID Cases	○	○	●	/	/	/	The number of weekly new cases in Nova Scotia for the week ending August 2, 2020 was 4. Nova scotia has had 11 weeks in a row with 10 new cases or less.
Dining Search Index	○	○	●	○	○	○	YOY intra-provincial dining searches are at moderate levels and have been plateaued since the week ending June 14, 2020.
Activities & Events Search Index	○	○	●	○	○	○	YOY intra-provincial activities & events searches are at moderate levels and been plateaued since the week ending July 19, 2020.

Legend:      Current phase ●      Not there yet ○      Signal not applicable □

<b>Prince Edward Island</b>	<b>III</b> Intra-Provincial	Intra-provincial travel searches are at levels similar to the same period in 2019 and dining searches are at a moderate level. Although Prince Edward Island has low levels of intra-provincial accommodation searches and bookings, the relatively small size of the province means that movement at a local level can also be considered as intra-provincial. For this reason, Prince Edward Island is observed as being in the Intra-Provincial phase.
-----------------------------	--------------------------------	---

**Prince Edward Island Assessment Summary:**

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	●	○	○	○	YOY intra-provincial travel searches have plateaued since the week ending July 5, 2020 at a level that has nearly recovered to 2019 levels. Throughout June, intra-provincial travel searches were at levels that were above or equal to 2019 levels.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial accommodation searches are at low levels and have been plateaued since the week ending June 14, 2020.
Rate of Hotel Booking	●	○	○	○	○	○	YOY intra-provincial accommodation bookings are at low levels and have been fluctuating since the week ending April 26, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending August 2, 2020, YOY air bookings from Prince Edward Island to other inter-provincial destinations is down 96% compared to the same period in 2019. The strongest week for air bookings since March 2020 were the weeks ending July 5 and July 26, 2020 at -91% YOY.
New COVID Cases	○	○	●	/	/	/	The number of weekly new cases in Prince Edward Island for the week ending August 2, 2020 was zero. Prince Edward Island has had 2 weeks in a row with no new cases.
Dining Search Index	○	○	●	○	○	○	YOY intra-provincial dining searches have been plateaued at moderate levels since the week ending June 7, 2020.
Activities & Events Search Index	●	○	○	○	○	○	YOY intra-provincial activities & events searches are at low levels but have recorded small increases since the week ending July 5, 2020.

Legend:      Current phase ●      Not there yet ○      Signal not applicable □

<b>Newfoundland &amp; Labrador</b>	<b>III</b> Intra-Provincial	Intra-provincial travel searches are above the same period in 2019 and Newfoundland & Labrador continues to have a low number of weekly cases. Combined with intra-provincial accommodation searches that are at moderate levels and accommodation bookings that have recently been at moderate levels, these signals indicate that Newfoundland & Labrador is in the Intra-Provincial phase.
------------------------------------	--------------------------------	---

**Newfoundland & Labrador Assessment Summary:**

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	●	○	○	○	YOY intra-provincial travel searches have been at a level that is above the same period in 2019 since the week ending June 7, 2020.
Accommodation Searches on OTA	○	○	●	○	○	○	YOY intra-provincial accommodation searches are at moderate levels and have been trending upwards since the week ending May 31, 2020.
Rate of Hotel Booking	○	○	●	○	○	○	YOY intra-provincial accommodation bookings have been plateaued at low to moderate levels since the week ending July 5, 2020.

## METHODOLOGICAL NOTES

**I. Recovery Signals:** The Recovery Measures are listed in their order of importance in understanding travel behaviour, with the primary measures in black and supporting measures in dark gray. A brief description of each measure is provided below.

Destination Canada has developed a framework to understand the phases of recovery of the travel market. These phases are:

- I. **COVID-19 Response:** Governments are responding with measures such as shelter in place and quarantines. Movement is restricted and travel is either not possible, desirable or encouraged.
- II. **Hyper Local Travel:** Some restrictions have been lifted and movement within local areas is possible. Governments will likely recommend that places ensure physical distancing while supporting local economies. Some travel may be taking place, such as day trips or overnight with friends and family.
- III. **Intra-Provincial or Intra-Territorial Travel:** Residents are booking trips within their province or territory. Travel by vehicle within a province/territory is possible and not discouraged.
- IV. **Inter-Provincial Travel:** Residents are booking trips in other provinces or territories. Travel by multiple means (air, car, trains, etc.) within the country, across provincial/territorial boundaries.
- V. **Tentative International Travel:** Some international travel, such as family related or urgent business. There may be some leisure travel from less risk averse travellers seek to capitalize on reduced prices or increases availability. Airlines may not have restored international routes beyond major hubs.
- VI. **Regularized International Travel:** Regular international travel. Some business meetings and events are re-introduced, leisure travel is closer to pre-COVID-19 levels.

A filled-in dot signifies that Destination Canada assesses we are in that phase of travel. An empty dot means we have not yet reached that indicator, and the crossed off box would signify that the measure does not apply for that phase of recovery. Some measures are currently being developed and will be updated as further progress is made.

## II. Description of the Measures

- **Travel Intent Search Index:** Google search engine queries for travel-related keywords in 2020 compared to 2019 searches, broken down by week (i.e. week of April 19, 2020 vs week of April 19, 2019). Available for each market's intra-provincial/territorial, inter-provincial/territorial and international travel search terms.
- **Rate of Accommodation Searches:** Weekly searches in 2020 for accommodation on a major online travel agency (OTA) against a rate of 2019 weekly searches, broken down by week. Available for each market's intra-provincial/territorial and inter-provincial/territorial accommodation searches. This is provided as a rate rather than a volume of searches.
- **Rate of Accommodation Bookings:** Accommodation bookings in 2020 on a major OTA against a rate of 2019 bookings, broken down by week. Available for each market's intra-provincial/territorial and inter-provincial/territorial accommodation bookings. This is provided as a rate rather than a volume of bookings.
- **Rate of Air Travel:** The volume of air bookings to other provinces/territories versus 2019 air bookings, broken down by week, as provided by IATA.
- **Weekly New COVID-19 Confirmed Cases:** The weekly total of new confirmed COVID-19 cases, as provided by the Government of Canada Health Infobase. Number of cases in the market and within other regions of Canada will likely be a determining factor for both governments allowing phased return of travel, as well as consumer confidence in traveling to a market.
- **Dining Search Index:** 2020 searches for dining related keywords compared to 2019 searches, broken down by week. Available for each market's intra-provincial/territorial, inter-provincial/territorial and international dining related search terms. This is provided as an index rather than a volume of searches.
- **Attractions & Events Search Index:** 2020 searches for attractions and events related keywords compared to 2019 searches, broken down by week. Available for each market's intra-provincial/territorial, inter-provincial/territorial and international attractions and events related search terms. This is provided as an index rather than a volume of searches.
