

# COVID-19 Impact and Recovery Report: Travel-Related Measures

Updated: September 1, 2020

This document provides an evergreen assessment of the situation in Canada. It has the following sections:

1. **Travel-Related Measures:** A summary of the travel and tourism-related measures in place in each province and territory. A map outlining the current travel restrictions and self-isolation requirements is available on Destination Canada's website: <https://caen-keepexploring.canada.travel/canada-nice#canadamap>
2. **Methodological Notes:** An explanation of the methodologies in the different sections and relevant sources.

## 1. TRAVEL-RELATED MEASURES

In addition to a federal government requirement mandating 14-day self-isolation for those who are eligible to enter Canada<sup>1</sup>, individual provinces and territories have implemented measures on travel between provinces and territories. The below table outlines self-isolation requirements for domestic travellers entering into each province or territory, as well as restrictions on travel across provincial and territorial borders. Tracking these measures is challenging given the fluid nature of COVID-19.
